Discover 3D Pens: Unleash Your Creativity

"Discover 3D Pens: Unleash Your Creativity!" is a dynamic and immersive one-hour program designed specifically for teens who want to explore the fascinating world of 3D pens. In this hands-on session, participants will embark on an exciting journey of artistic expression and technological innovation.

July 20th

Book Making with Sally Ziegler

In this two-session workshop, students will be given the option to construct several simple books, using multiple construction methods, such as the accordion style, origami book, French door book, and Japanese stab binding book. The first class will allow for some surface-treated paper exploration as well as an introduction to some simple construction techniques.

Students must commit to both workshops.

July 27th

Book Making Session 2

This second class will give students the time to complete some small simple books as well as construct a small Japanese stab binding journal. Surface-treated paper, created in the first class, as well as other papers provided, will be used for covers, endpapers, and pages. Embellishments and closure options will be explored and used as well.

August 3rd

Paper Flowers

Create another gorgeous piece of art with only paper! A Big Paper Flower will look beautiful on your wall!
